

RainClim 1.0 Licence Agreement

RAINCLIM has been developed for use restricted to the EPSRC/UKCIP Building Knowledge for Climate Change Research (BKCC) Programme. RainClim is distributed on a limited basis to research, education and certain industry institutions within the BKCC consortium for the purpose of pursuing scientific research and educational activities and for no other purposes including, but not limited to, commercial purposes.

The University of Newcastle upon Tyne will make RainClim available to

.....(institution)

for use in the Building Knowledge for a Changing Climate (BKCC) programme

.....(project name)

under the following terms and conditions:

RainClim must only be used by the named institution for the sole purpose of their research work on the named BKCC project. RainClim and its outputs must not be used for the purpose of any other project (including other BKCC projects) without the prior permission of the University of Newcastle upon Tyne. RainClim and its outputs must not be passed to any third party (whether a person or an institution), and must not be used for any commercial purpose.

RAINCLIM is the property of the University of Newcastle upon Tyne, which holds the full right, title and interest in and to the copyright of RAINCLIM.

RAINCLIM is distributed as is without any warranties, either express or implied, as to its suitability for any particular purpose, application or use. Further, neither the University of Newcastle upon Tyne nor RAINCLIM's developers will be liable for any indirect, special or consequential damages in connection with or arising from the provision of, performance of or use of RAINCLIM.

RAINCLIM's developers request that if RAINCLIM is used as the basis for any research results, reports or publications, the sources of the relevant scientific model components be acknowledged in the usual way. These are listed in the Help Screen in RAINCLIM.

We request that you acknowledge your acceptance of these Terms and Conditions by signing this document, copying it and returning it to:
